SHOWN IN HD Courtesy of Anchor Bay Entertainment Friday, September 7 – 7pm Sunday, September 30 – 10pm hyper-violent, perversely hilarious exaggeration of the darkest teen angst impulses ever imagined, Battle Royale transports ninth-grade students to a remote island and lowers them against each other in an all-out deathmatch complete with heavy artillery and hidden killers. The winner is considered a decent living in Japanese society under a new Battle Royale act installed by adults trying to teach youngsters about endurance and respect for their country. Based on the controversial novel by journalist Koushun Takami, Battle Royale was the last completed element of septuagenarian master filmmaker Kinji Fukasaku, who brought his experience as a 15-year-old munitions factory worker during World War II to the fore. After receiving an outraged reception in Japan, the film's chances of distribution in the US were further hampered by popular opposition to violent media following the shootings at Columbine High School. Only this year the film was finally released in the US and received new attention due to similarities to The Hunger Games. Which is ridiculous because it's a much bloody and better powder-barrel movie blowing any comparison through the window in the first five minutes. Rightly proclaimed as the dark satire of modern Japan, Also one of the best action movies of the last 20 years, Spectacle presents HD transfer straight from its new distributor in the US.
